LASER CUTTING

At Phoenix Metalform, our unwavering commitment to excellence is embodied in our comprehensive and high quality laser cutting service, extending its reach to clients throughout Australia.

Capabilities

- » 6kw Lasers
- » Cutting Depth Up to 25m
- » Bed Size 3000mm x 1500mm
- » Tube Laser lengths up to 6m

Our adept team collaborates with various metals, including stainless steel, brass, and aluminum, ensuring your envisioned products come to life with meticulous precision. Powered by 6kw Lasers, our state-of-the-art machinery allows us to cut a diverse array of materials with unparalleled precision. With a generous bed size of 3000mm x 1500mm, we undertake projects of all sizes. Our tube laser has capability up to 6m lengths. At Phoenix Metalform, we pride ourselves on our ability to cater to various materials, from mild steel to stainless steel, brass, aluminum, and copper. Our capabilities extend beyond laser cutting, encompassing oxy cutting & folding. This versatility allows us to meet the diverse needs of your projects.

PERFORATED METALS & TURRET PUNCHING

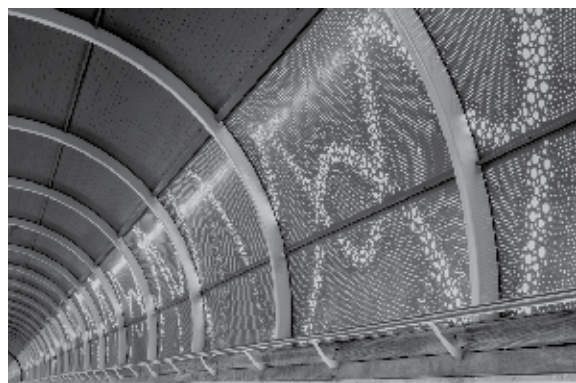

Top Quality Perforated Sheet Metal for Sale from Our Perth Factory. Phoenix Metal is one of Australia's leading providers in metal building products.

Any metal product you need for your business's building purposes, we most likely have it. We are located in Perth, though we have distribution centres across Australia which allows us to easily provide the country with metal products for building.

Phoenix offers a range of perforated metal products which can be customised to suits most designs. We can perforate in Stainless Steel, Alloys, Brass, Mild Steel and Aluminium.

Our panels can be powder coated, galvanised, electroplated or left uncoated for a more rustic look. We can even take a photo and convert it to a perforated metal format using state of the art technology.

All panels can be customised to suit your requirements – no matter how you would like our perforated sheet metal to be customised, we will happily do this for you.

STREET FURNITURE

We Offer a Wide Range of Custom Metal Street Furniture for Outdoor Spaces.

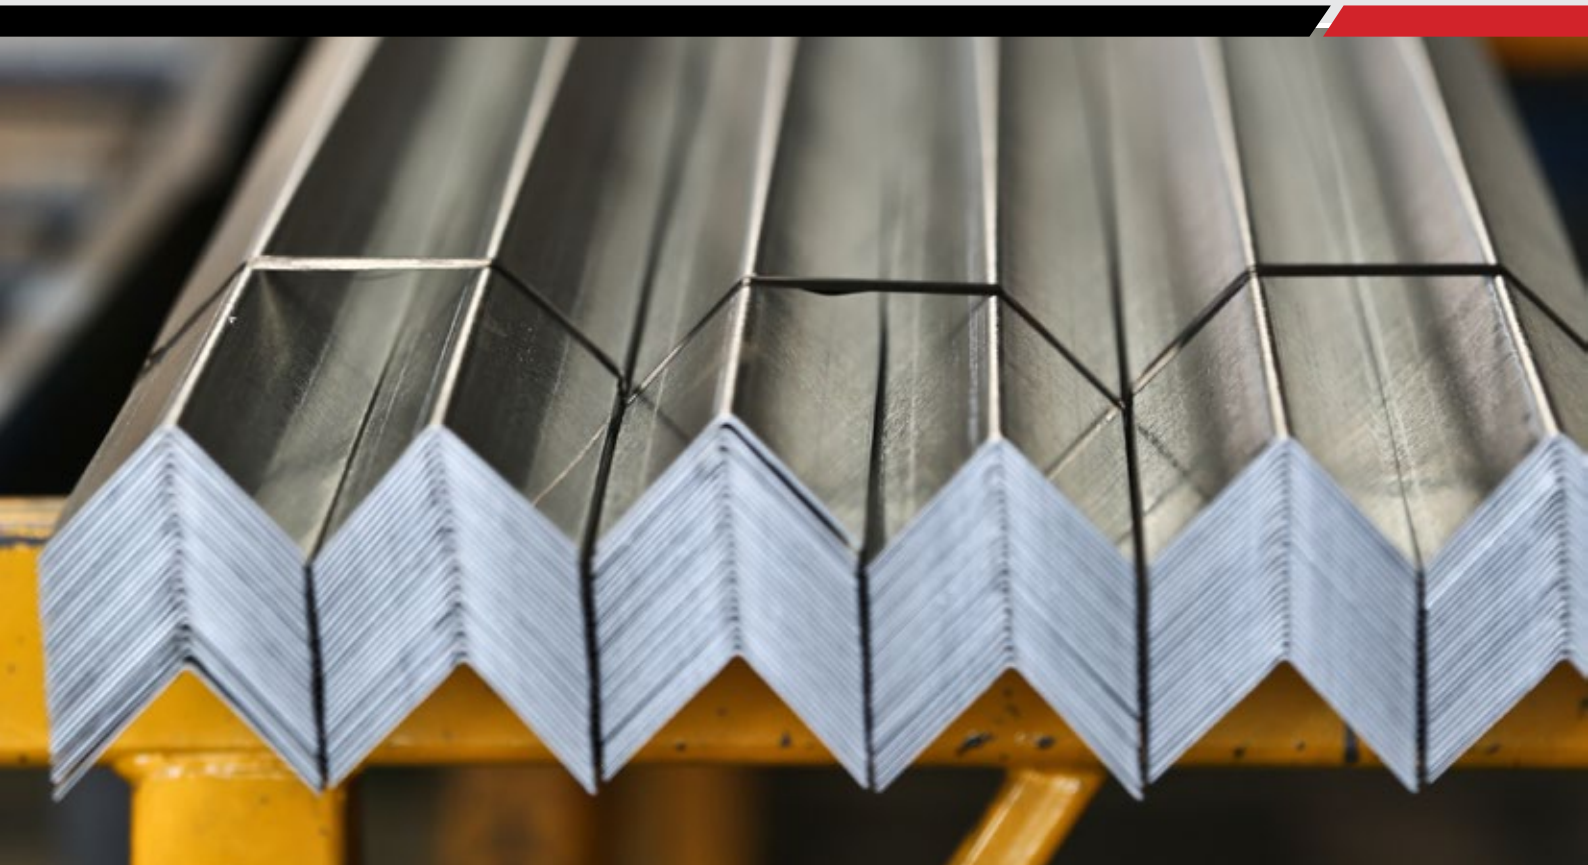

Our products include:

- » Seats
- » Benches
- » Tables & Settings
- » Rubbish Bins
- » Bus Shelters
- » Bike Racks
- » Bin surrounds & enclosures

All items can be customised and finished in various coatings and colours.

Our experienced team can help you with design and ensuring you have a cost effective product.

ROLLFORMED PRODUCTS

High Quality and Versatile Metal Rollformed Building Products Available from Our Perth Warehouse.

Phoenix Metalform's rollformed products are versatile and easy to use whilst providing strength and remaining lightweight.

When you choose Phoenix Metalform to supply your business with rollformed products you can be sure that you are receiving the best product at the best price available.

METAL CORE TRAYS & RACKING SYSTEMS

Phoenix Metal provides highly durable and reliable metal core trays & racking systems. We strive to produce the highest quality metal core trays to ensure your contents arrive at your destination safe and secure.

Phoenix Metal Form use only heavy gauge material along with the most advanced production technology to produce the end product of a durable core tray that we are proud to put our name on.

All our metal core trays are durable, weatherproof and lightweight with the added feature of safety edges around all sides for extra protection. Our range of standard sizes will suit all core trays. Choose from 100 x 400, 1070 x 470, 810 x 470 or for something a little more unique, have yours custom built to fit by our expert team. You can also choose galvanised colour bond or aluminium.

Our trays are fabricated from heavy gauge material to withstand the rigours of transportation and handling, meaning they last longer and protect your items in transit.
